

Description	Thickness (mm)	Pole Pitch (mm)	Magnetic Strength (g/cm <sup>2</sup> )	Remarks
Anisotropic magnet One side magnetized, No self-adhesive layer with UV coating- pole pitch = 5mm <b>Size: 1000 x 615 x 2mm (NF-11)</b>	2.0mm	5mm	Mini.≥103 Typical≥126.5	
Fleximaxx Magnets- flexible rare earth magnets <b>Model NNC-6</b>	1.0mm	3mm	≥420	1.The width for Fleximaxx magnet advised within 300mm, and length can be customized, but within 1000mm will be more better.
	1.5mm	3mm	≥600	
	2.0mm	3mm	≥680	
Fleximaxx Magnets- flexible rare earth magnets <b>Model NNC-8</b>	1.0mm	3mm	≥600	2. The suction test is for large pieces of splicing test, and the narrow strip splicing test data will be lower.
	1.5mm	3mm	≥800	
	2.0mm	3mm	≥900
